“Peripartum Cardiomyopathy Diagnosis Prompted by Smart Watch: A Multidisciplinary Discussion”

Dr. LaToya Mason  
Dr. Arthur Calimaran  
Dr. Myrna Alexander Nickens  
Dr. Rachael Morris  
Department of Anesthesiology  
University of Mississippi Medical Center

July 28, 2021  
6:30 AM- 7:30 AM

**Educational Objectives**  
At the conclusion of this activity, the learner should better be able to:

1. Discuss the contribution of cardiovascular disease - namely peripartum cardiomyopathy - to maternal mortality in the United States.  
2. Describe causes and contributing factors of cardiovascular-related maternal mortality.  
3. Explain pathophysiology, diagnosis, and treatment of peripartum cardiomyopathy.  
4. Describe the role of echocardiography and point-of-care-ultrasound in diagnosis and management of PPCM.  
5. Discuss utilization of smart devices and application of existing algorithms in diagnosis of cardiovascular diseases of pregnancy.

**Target audience:** Physicians, Nurse practitioners, Nurses and other interested healthcare providers.

The speaker for today has no relevant financial relationships to disclose.

**There are no fees for participating in this live activity.**

**AMA** The University of Mississippi School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.  
As an organization accredited for continuing medical education, the University of Mississippi School Medicine designates this live activity for a maximum of [1.0 AMA PRA Category 1 Credit™](http://ama-assn.org) toward the AMA Physician’s Recognition Award.  
Physicians should only claim credit commensurate with the extent of their participation in the activity.
