

Children's of Mississippi Visitor Policy in response to COVID-19 December 2020

Effective December 14, 2020 and until further notice, the visitor policy is as follows:

Children's of Mississippi inpatients:

- Have two adult parents, guardians or caregivers at a time as the designated visitors for the duration of the admission.
- Visitors are required to wear a mask and remain in the patient room or associated designated area for the entirety of the visit.

Children's of Mississippi ambulatory clinics:

Our number-one priority is to keep your child and all our patients safe. Only two adult caregivers may accompany a patient to clinic visits. Although two adult caregivers are allowed, we strongly recommend that no more than one caregiver accompany patients to any appointment at a Children's of Mississippi location.

Again, for their safety and the safety of all our patients, siblings are not permitted at this time. This policy will be strictly enforced so please make other arrangements.

Visitors, accompanying caregivers and pediatric patients over the age of two must wear face coverings for the duration of the visits. We ask that a mask be brought from home, however, face masks are provided at entrances for those who do not have one.

Fetal Center:

- No visitors allowed at this time.

In-house food services on main campus are either closed or limited to visitors (e.g., Cafeterias, McDonalds and Cups), however grab-and-go options are available.

Hospital visiting hours:

- Monday-Friday 5:15 a.m. – 7:00 p.m.
- Saturday- Sunday 10:00 a.m. – 7:00 p.m.
