

Open wireless networks and select “UConnect” to join.

The following should be selected:  
EAP method – **PEAP**  
Phase 2 authentication – **MSCHAPV2**  
CA certificate – **Trust on First Use**

Next, enter your Active Directory  
Username (**Anonymous identity**)  
and Password (**Password**)

A screenshot of an Android Wi-Fi configuration screen for a network named "UConnect". The screen is dark-themed with yellow accents. It shows the following settings: EAP method set to "PEAP", Phase 2 authentication set to "MSCHAPV2", and CA certificate set to "Trust on First Use". Below these are fields for "Identity" (containing "Anonymous identity"), "Anonymous identity", and "Password".

EAP method  
PEAP  
Phase 2 authentication  
MSCHAPV2  
CA certificate  
Trust on First Use  
Identity  
Anonymous identity  
Password

You should now be connected to  
Uconnect!
