Congo	Kazakhstan	Nepal	Somalia	

Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2012. Countries with incidence rates of  $\geq 20$  cases per 100,000 population. For future updates, refer to <http://apps.who.int/ghodata>.

1. Have you had frequent or prolonged visits\* (> 1 week) to one or more of the countries listed above with a high prevalence of TB disease? (If yes, CHECK the countries, above)  Yes  No
2. Have you been a volunteer and/or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)?  Yes  No
3. Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease or cared for someone with active TB infection in the past 6 months?  Yes  No
4. Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease – medically underserved, low-income, or abusing drugs or alcohol?  Yes  No

**If the answer is YES to any of the 4 above questions, UMMC Employee and Student Health requires that you receive TB testing as soon as possible, at least 2-4 weeks prior to the start of the program.**

**If the answer to all of the above questions is NO, no further testing or further action is required.**

\* The significance of the travel exposure should be discussed with a health care provider and evaluated.
