PEDIATRIC NEPHROLOGY CLINICAL PRIVILEGES

Name: ________________________________

☐ Initial Appointment
☐ Reappointment

All new applicants must meet the following requirements as approved by the governing body effective: 8/5/2015.

Applicant: Check off the “Requested” box for each privilege requested. Applicants have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current competence, current clinical activity, and other qualifications and for resolving any doubts related to qualifications for requested privileges.

Department Chair: Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

Other Requirements

- Note that privileges granted may only be exercised at the site(s) and/or setting(s) that have the appropriate equipment, license, beds, staff and other support required to provide the services defined in this document. Site-specific services may be defined in hospital and/or department policy.
- This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional governance (MS Bylaws, Rules and Regulations) organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

QUALIFICATIONS FOR PEDIATRIC NEPHROLOGY

To be eligible to apply for core privileges in Pediatric Nephrology, the initial applicant must meet the following criteria:

Current subspecialty certification in pediatric nephrology by the American Board of Pediatrics or the American Osteopathic Board of Pediatrics.

OR

Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in pediatrics followed by successful completion of an accredited fellowship in pediatric nephrology and active participation in the examination process with achievement of certification within 5 years of completion of formal training leading to subspecialty certification in pediatric nephrology by the American Board of Pediatrics or the American Osteopathic Board of Pediatrics.

Required Previous Experience: Applicants for initial appointment must be able to demonstrate a sufficient volume of recent participation, reflective of the scope of privileges requested, in the prescribing of regimens for the care of children and adolescents with end stage renal disease, including dialysis and renal transplantation, biochemical monitoring and treatment, nutritional therapy, plus evidence of performance of commonly performed nephrologic procedures within the last 24 months; or demonstrate successful completion of an ACGME or AOA accredited residency, clinical fellowship, or research in a clinical setting within the past 12 months.
**PEDIATRIC NEPHROLOGY CLINICAL PRIVILEGES**

**Reappointment Requirements:** To be eligible to renew core privileges in pediatric nephrology, the applicant must meet the following Maintenance of Privilege Criteria:

Current demonstrated competence and a sufficient volume of experience with pediatric nephrology patients, with acceptable results, reflective of the scope of privileges requested, for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges. Medical Staff members whose board certificates in pediatric nephrology bear an expiration date shall successfully complete recertification no later than three (3) years following such date. For members whose certifying board requires maintenance of certification in lieu of renewal, maintenance of certification requirements must be met, with a lapse in continuous maintenance of no greater than three (3) years.

**CORE PRIVILEGES**

- **Requested** Admit, evaluate, diagnose, consult and provide treatment to infants, children and adolescents with diseases and disorders or normal and abnormal development and maturation of the kidney and urinary tract, evaluation and treatment of renal diseases, fluid and electrolyte abnormalities, and hypertension. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list.
SPECIAL NON-CORE PRIVILEGES (SEE SPECIFIC CRITERIA)

If desired, Non-Core Privileges are requested individually in addition to requesting the Core. Each individual requesting Non-Core Privileges must meet the specific threshold criteria governing the exercise of the privilege requested including training, required previous experience, and for maintenance of clinical competence.

MEDICAL MANAGEMENT OF THE KIDNEY TRANSPLANT PATIENT

Criteria: Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited fellowship in pediatric nephrology. Required Previous Experience: Demonstrated current competence and evidence of the medical management of a sufficient number of kidney transplant patients in the past 12 months. Maintenance of privilege: Demonstrated current competence and evidence of the medical management of a sufficient number of kidney transplant patients in the past 24 months based on results of ongoing performance practice evaluation and outcomes.

ADMINISTRATION OF SEDATION AND ANALGESIA

☐ Requested See Hospital Policy for Procedural Sedation by Non-Anesthesiologists for additional information.

Section One--INITIAL REQUESTS ONLY:

☐ Completion of residency or fellowship in anesthesia, emergency medicine or critical care -OR-

☐ Completion of residency or fellowship within the past year in a clinical subspecialty that provides training in procedural sedation training -OR-

☐ Demonstration of prior clinical privileges to perform procedural sedation along with a good-faith estimate of at least 20 such sedations performed during the previous year:

__________________________________________________________________________

-OR-

☐ Successful completion (within six months of application for privileges) of a UMHC-approved procedural sedation training and examination course that includes practical training and examination under simulation conditions.

Section Two--INITIAL AND RE-PRIVILEGING REQUESTS:

☐ Successful completion of the UMHC web based Procedural Sedation Course/Exam initially and at least once every two years -AND-
PEDIATRIC NEPHROLOGY CLINICAL PRIVILEGES

Name: ____________________________

Provision of a good-faith estimate of the number of instances of each type of procedure where sedation is administered with a list of any adverse events related to the sedation during those cases, including causal analysis, treatment, and outcome:

__________________________________________________________________

__________________________________________________________________

–AND–

□ ACLS, PALS and/or NRP, as appropriate to the patient population. (Current)

–OR–

□ Maintenance of board certification or eligibility in anesthesiology, emergency medicine or critical care specialties, as well as active clinical practice in the provision of procedural sedation

Section Three—PRIVILEGES FOR DEEP SEDATION:

□ I am requesting privileges to administer/manage deep sedation as part of these procedural sedation privileges.

Deep Sedation/Anesthetic Agents used: ________________________________

__________________________________________________________________

APPLICABLE TO REQUESTS FOR DEEP SEDATION ONLY:
I have reviewed and approve the above requested privileges based on the provider’s critical care, emergency medicine or anesthesia training and/or background.

________________________________ __________________________
Signature of Anesthesiology Chair Date

ULTRASOUND-GUIDED CENTRAL LINE INSERTION

□ Requested See Medical Staff Policy for Ultrasound-Guided Central Line Insertion for additional information.

Initial Privileging:

As for core privileges plus:

• Performance of at least 10 ultrasound-guided central line insertions in the past 24 months; and

• Completion of a UMMC ultrasound-guided central line insertion Healthstream learning module

Maintenance of Privilege:

As for core privileges plus:
PEDIATRIC NEPHROLOGY CLINICAL PRIVILEGES

Name: ________________________________

- Performance of at least 10 ultrasound-guided central line insertions in the past 24 months; and
- Completion of a UMMC ultrasound-guided central line insertion Healthstream learning module

If volume requirements are not met, the following may substitute:

- Completion of ultrasound-guided central line insertion simulation training in the UMMC Simulation and Interprofessional Education Center; and
- Focused professional practice evaluation to include proctoring of the ultrasound-guided insertion of at least 5 central lines (femoral or internal jugular) within the first 6 months of re-appointment
To the applicant: If you wish to exclude any procedures, please strike through those procedures which you do not wish to request, initial, and date.

- Acute and chronic hemodialysis
- Biochemical monitoring and treatment
- Continuous renal replacement therapy
- Coordinating end stage renal care
- Hemofiltration
- Image guided techniques as an adjunct to privileged procedures
- Local anesthetic techniques
- Manage and maintain indwelling venous access catheter (femoral and internal jugular access require special privileges for ultrasound guided central line insertion)
- Nutritional therapy
- Order respiratory services
- Order rehab services
- Percutaneous biopsy of autologous and transplanted kidney
- Perform history and physical exam
- Perform routine medical procedures (Venipuncture, skin biopsy, bladder catheterization, fluid and electrolyte management, foreign body removal from nose or ear, administer medications and special diets through all therapeutic routes, basic cardiopulmonary resuscitation, superficial burns, evaluation of oliguria, I & D abscess, interpretation of antibiotic levels and sensitivities, interpretation of EKG (for therapeutic purposes), lumbar puncture, arterial puncture and blood sampling, management of anaphylaxis and acute allergic reactions, management of the immunosuppressed patient, monitoring and assessment of metabolism and nutrition, pharmacokinetics, use of reservoir masks and continuous positive airway pressure masks for delivery of supplemental oxygen, humidifiers, nebulizers, and incentive spirometry)
- Perform waived laboratory testing not requiring an instrument, including but not limited to fecal occult blood, urine dipstick, and vaginal pH by paper methods
- Peritoneal dialysis
- Placement of temporary vascular access for hemodialysis and related procedures
- Plasmapheresis
- Preoperative evaluation and preparation for transplantation
- Telehealth
- Suture uncomplicated lacerations
ACKNOWLEDGEMENT OF PRACTITIONER

I have requested only those privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and for which I wish to exercise at University Hospital and Health System University of Mississippi Medical Center, and I understand that:

a. In exercising any clinical privileges granted, I am constrained by Hospital and Medical Staff policies and rules applicable generally and any applicable to the particular situation.

b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the Medical Staff Bylaws or related documents.
