Want to become a major donor to the University of Mississippi Medical Center?

Host a blood drive!

Individuals or organizations who host blood drives for Mississippi Blood Services in the Medical Center’s name contribute in a tangible way to one of the UMMC Level One Trauma Center’s most important missions: SAVING LIVES.

UMMC is the No. 1 user of the state’s blood supply. By hosting a blood drive, you can help us meet blood supply needs for our patients.

For more information about hosting a blood drive in your community to support UMMC, contact:
