

This Week in the CRRC

MARCH 28, 2021

COVID and Pregnancy Symposium

Dr. Ai-ris Collier, instructor at Harvard Medical School, Dr. Jenny Myers, professor at Manchester University, UK, Dr. Richard Burwick, assistant professor at Cedars-Sinai Medical Center, Dr. Peilin Zhang, attending pathologist at Brooklyn Methodist Hospital, and Dr. Ananth Karamanchi, Medallion chair in vascular biology at Cedars-Sinai, will present for the COVID and Pregnancy Symposium on [Mon, March 22nd at 12 pm online via Zoom.](#)

Cell and Molecular Biology Virtual Seminar

Dr. Abdel Alli, assistant professor of cell and molecular biology, will give the virtual seminar, “Epithelial Transport Mechanisms in the Aldosterone-sensitive Distal Nephron and Hypertension,” at [3 p.m. on Monday, March 29, online via Zoom.](#)

Physiology Seminar Virtual Seminar

Dr. Gregory Vercellotti, professor in the Division of Hematology, Oncology, & Transplantation Dept of Medicine at the University of Minnesota Medical School, will give the Department of Physiology and Biophysics virtual seminar entitled, “Hemolysis and Vaso-occlusion: Response of the Vasculature in SCD” [noon on Wed, March 24, online via Zoom.](#)

Jones-Muhammad and Gisabella to present at CRRC WIP Meeting

Maria Jones-Muhammad, PhD student in the department of neuroscience, will present “Seizure Susceptibility in RUPP mice”, and Dr. Barbara Gisabella, assistant professor in the department of neurobiology and anatomical sciences, will present, “Regulation of Emotional Memory in Psychiatric Disorders”, on [Thursday, March 25th, at 1 pm online via Zoom.](#)

Congratulations to Samar Rezaq, PhD, postdoctoral fellow in the department of Cell and Molecular Biology, for being awarded the Renal Section Research Recognition Award by the American Physiological Society.
