

# THIS WEEK IN THE CRRC

August 13, 2023

University of Mississippi Medical Center

## ZOOMing in on Preeclampsia Virtual Seminar

We are excited to announce the return of the ZOOMing in on Preeclampsia Research Seminar Series in September 2023. The series provides training & networking opportunities for early-stage investigators & trainees that are engaged in PE research. Click here to participate / present: <https://forms.gle/ox6eq2GS3T57pYjFA>

## Department of Cell & Molecular Biology Seminar

Dr. Anne Wyllie, Research Scientist in Epidemiology at Yale School of Public Health, will give a seminar titled, *Saliva as a reliable sample type for sustainable surveillance and outbreak response efforts*, on **Monday, August 14th at 1PM via WebEx and in person in Classroom 3A.**

## Department of Physiology & Biophysics Seminar

Dr. Aaron Polichnowski, associate professor in the Department of Biomedical Sciences at East Tennessee State University, will present, *Novel analytical approaches to assess renal blood flow autoregulation in conscious rats*, on **Wednesday, August 16th at 12PM, via WebEx and in person in CW106.**

## COBRE-MCOR-MCCTR Seminar

Dr. Carolann Risley, associate professor of nursing at UMMC, will present, *Association of the Cervical Vaginal Microbiome, Bacterial Vaginosis, and HPV Progression-16s rRNA Assay Results*, and Dr. Erin Taylor, assistant professor in the Department of Physiology & Biophysics at UMMC, will present, *The Impact of Obesity and Leptin on the Development of Hypertension in Females with Systemic Lupus Erythematosus* on **Thursday, August 17th, at 3PM online via WebEx.**

## Kudos

Breland F. Crudup, 4th year graduate student in Physiology, will receive an Award for the Support of Underrepresented Minorities at the Hypertension 2023 Scientific Session to be presented on September 9th, 2023.
