

# Ideate Sign-in and Browser Configuration

---

You may access the IRB application via: <http://irbideate.umc.edu>

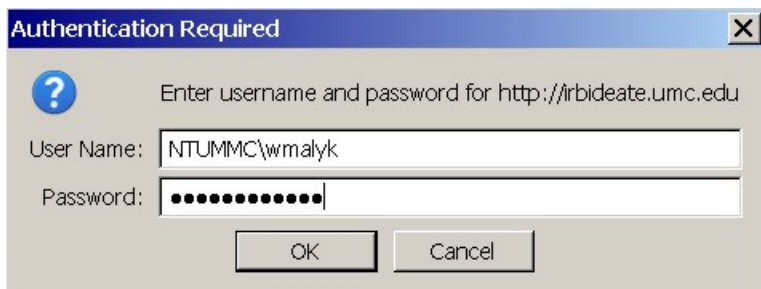

The site has been tested in Firefox 5+ and IE 9+. For best performance, we recommend Firefox (<http://www.mozilla.com/en-US/firefox/new/>).

---

## Logging In:

There are two options for logging in:

- 1) Single Sign On (SSO): if you have configured your browser to work with SSO, it will automatically log you in when you visit the site (see setup instructions below).
- 2) Using your Windows Credentials: if you have not configured your browser for SSO, you will be prompted for a login and password, please enter them as below:

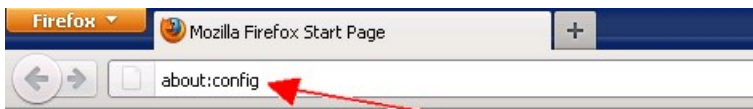

# Firefox Configuration:

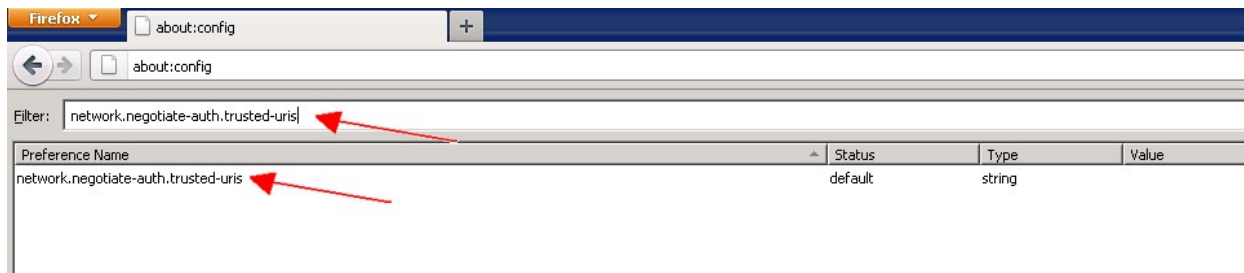

---

## Enabling Single Sign On

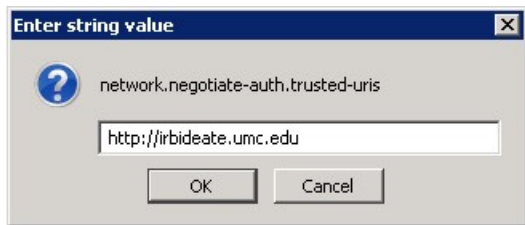

1. Type `about:config` in the address bar and hit enter.

2. Click on "I'll be Careful" if prompted

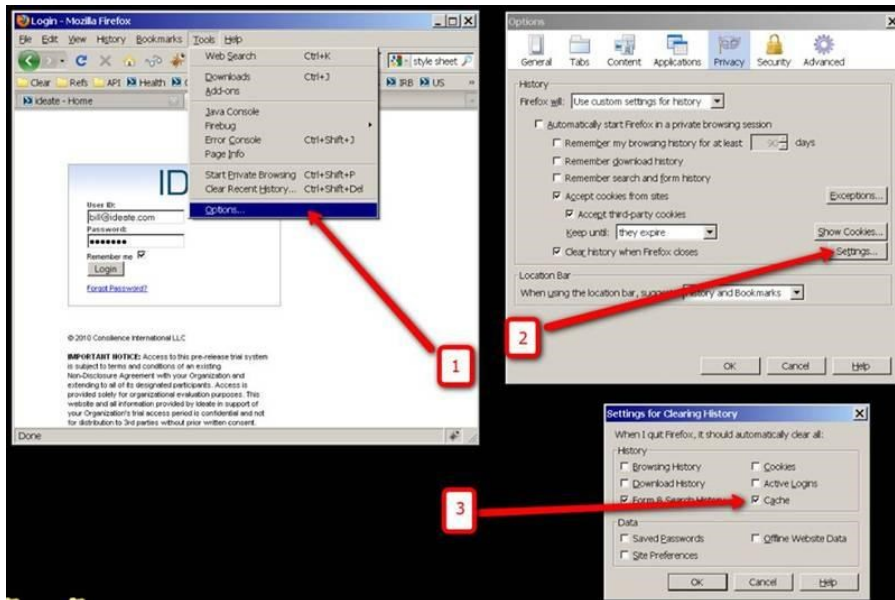

3. Type **network.negotiate-auth.trusted-uris** in the Filter box.
4. Double click on the item to display the value dialog box.

5. Type <http://irbideate.umc.edu> into the text box provided.
6. Click **OK**.
7. Restart the browser.

## Changing the Cache Setting:

### For PC Users:

1. Click on **Tools** in the menu bar.
2. Click **Options**.
3. Click on **Privacy**.
4. Check **Clear history when Firefox closes** checkbox.
5. Click the **Settings** button.
6. Click the **Cache** checkbox.
7. Click **OK**.

### For Mac Users:

1. Click on **Firefox** in the Menu Bar.
2. Click on **Preferences**.
3. Click on the **Privacy** tab.
4. Set **Firefox will to Use custom settings for history**.
5. Deselect the **Automatically start Firefox in a private browsing session** checkbox.
6. Check **Clear history when Firefox closes** checkbox.
7. Click the **Settings** button.
8. Click the **Cache** checkbox.
9. Click **OK**.

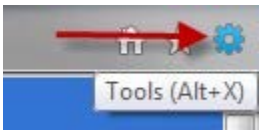

# Internet Explorer Configuration

---

Enabling Single Sign On:

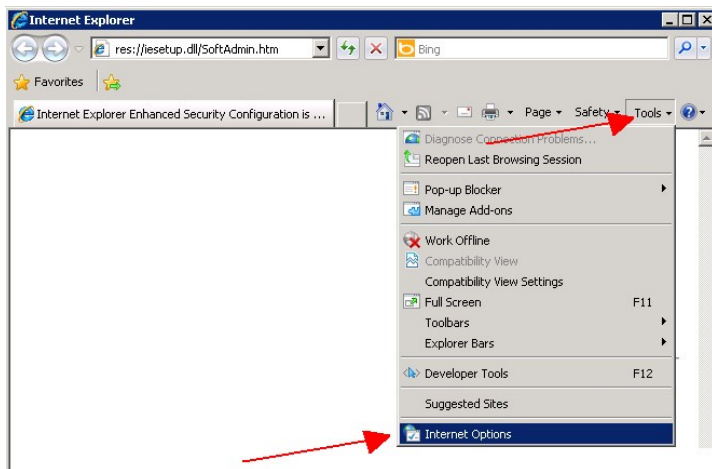

**Ensure that Integrated Windows Authentication is enabled.**

Internet Explorer users:

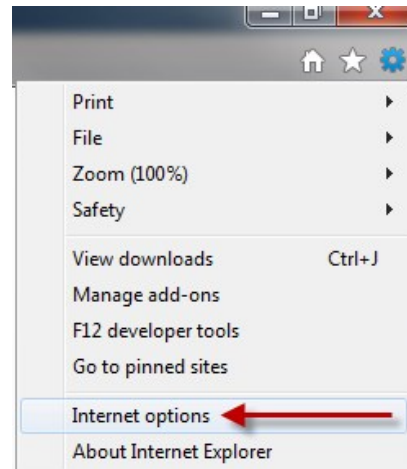

1. Click the Tools icon located in the upper right hand corner of the browser to begin.

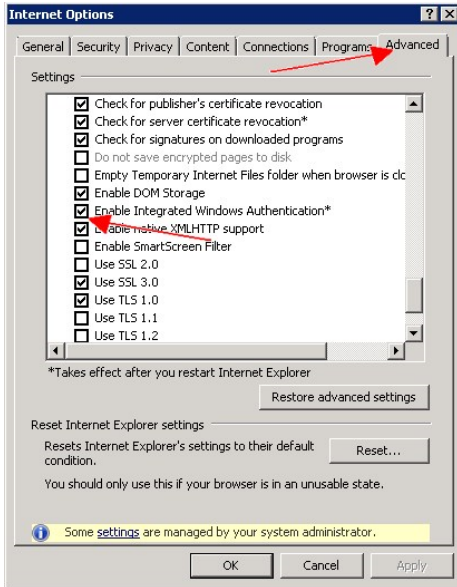

IE 8 Users:
