Inbound Aircraft Procedures

1. Contact MS MedCom via state net 15 min prior to provide medical information and receive a heliport advisory.
2. Transient aircraft plan on using south spot.
3. Cold off-loads are the norm. UMMC employees will not assist with hot off-loads.
4. Pilots stay with aircraft to relocate if instructed by UMMC.
5. Visiting aircraft will communicate with MS MedCom prior to returning to UMMC for pickup of medical personnel.

Multiple Aircraft Procedures

1. Pilots should monitor ATC assigned/CTAF and 4MS6 common frequency (123.05) in immediate vicinity of UMC.
2. Pilots will stay with aircraft to relocate if instructed by UMMC.
3. Aircraft depart on an East/West heading with a turn to the North to remain clear of the holding aircraft.
4. Visiting aircraft have the option of landing at HKS or JAN and for ground to UMMC.
